Dear friends from the Temple Israel Quilters Ottawa  
Canada,

Once again you have surprised us with the most exquisite designs!!!! As you can see from this photo we are BIG fans of quilts we even have one large heart shaped one decorating our walls!!! We got used to have your gorgeous designs in our department as regular fixtures and sometimes we forget the wonderful feeling they provide when you walk in the NICU for the first time! Over and over again the new parent faces light up!

So keep those creative minds and super skilled hands working coz we love and rely on these little rays of sunshine!!!!

THANK YOU and as always, with love from Jerusalem,

From all the NICU family and Audrey Gross, Guest Relations
